14 GruntWorx sends all the processed files back to the GruntWorx folder within Drake Documents.

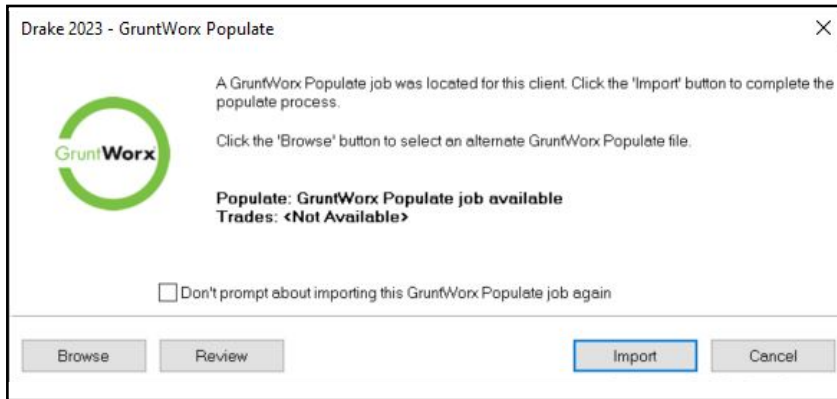

- All GruntWorx jobs provide an organized Bookmarked PDF file.
- If you add on Populate, you will also have an XML file.
- If a Trades product was added, you will have an XLS file.
- If there were any Diagnostic Flags from GruntWorx, there will be a Diagnostics.XLS file.

15 To review the organized PDF from **Drake® Documents**, open the Bookmarked.PDF file.

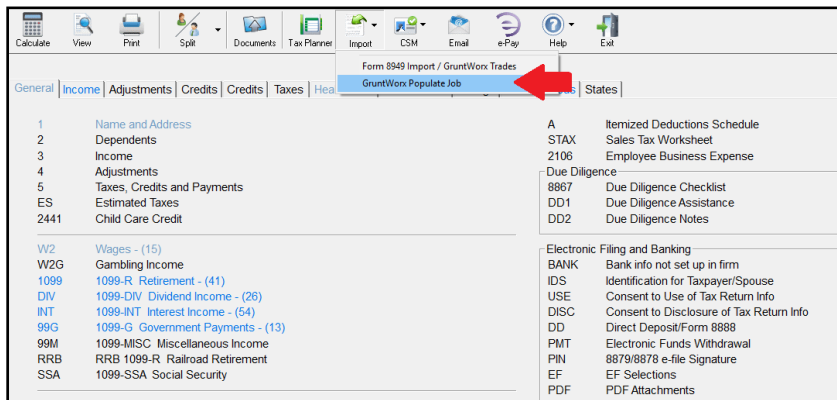

16 To review trades from **Drake® Documents**, open the Tradesheet.XLS file and a spreadsheet will open where you can easily make adjustments before you import. Be sure to save the file when you are finished making changes. The file will be saved in your **Drake® Documents** folder.

17 The XML file contains your Populate job federal form extracted data and should not be edited.

- 18 Once you have reviewed this information in the Drake® Document Manager, return to the **Drake Tax® Software Home Window** and find your client. Click on your client's name. A prompt appears letting you know there is a GruntWorx Populate Job located for the client. Click **Import** to populate the data into your client's return.

- 19 If you do not receive a prompt to import, the **Data Entry Screen** will appear. Click **Import** in the toolbar and then **GruntWorx Populate Job**. If your job was an Organize with Trades ADD-ON, click **Import** then **Form 8949 Import / GruntWorx Trades**.

- 20 If there were Trades in the completed files, the Drake Tax® import tool will open. Click **Import** and follow prompts to automatically populate the capital gains into your client's 8949 and Schedule D.

- 21 Once the import is complete, you will be directed to your client's **Data Entry Screen**. You can now easily manipulate or adjust any fields within the software.

Multi-Site Account Information

If a Drake Tax® user is a part of a Multi-Site Account, the Multi-Site Admin (Master Account) user needs to select the of-office control for each location when logging into the GruntWorx page on the Drake Tax® Support Site. The user is prompted with two options:

- **Home Office Control** - This option allows only the home office to purchase GruntWorx Dollars. Both the home office and sub-office can use dollars from the home office's dollar bank. When the dollar bank is used up, the sub-offices will have to request the home office to purchase more dollars. The home office can create reports in Enterprise Office Manager to show the dollars each sub-office has used.
- **Individual Office Control** - This option allows each office (home office or sub-office) to purchase its own GruntWorx Dollars, and each office has its own dollar bank. With this option, the home office will not have control or reporting to track the dollars that sub-offices have purchased or used.

The Admin needs to make sure to select the correct option as this decision is final and cannot be changed.

Once this selection is made, the user can move forward with activating the GruntWorx account.
